

Superior product line

KeyPad S Plus Jeweller

Wireless touch keypad with support for encrypted contactless cards and key fobs.

What's new

Baseline KeyPad Plus Jeweller	Superior KeyPad S Plus Jeweller
Common battery	Enhanced battery
Available for all PROs	Available only for accredited partners

This is the device of the **Superior product line**. Superior products are advanced versions of Jeweller devices. This product line is developed for projects. Only accredited Ajax Systems partners can sell, install, and administer Superior products.

Contactless authorization

- Ajax Pass and Tag to manage security modes without contact
- DESFire® technology for fast and secure users authorization
- Remote access control

Control with access codes

- 3 code types: common keypad code, personal user code, and unregistered user code (for the users who do not have Ajax accounts)
- All codes can be changed remotely in the apps

Sabotage protection

- Protection against invalid access devices
- Protection against code guessing
- Duress code

Jeweller communication technology

- Up to 1,700 m of radio communication in an open space
- Data is encrypted throughout the transmission process
- Regular polling to display current device statuses

Flawless autonomy

- Up to 4.5 years of battery life
- Low battery notifications
- Energizer pre-installed batteries

Sabotage resistance

- Tamper alarm
- Device authentication to prevent spoofing
- Holding screw to secure the device on SmartBracket

Quick installation and setup

- Pairing with a hub via QR code
- Remote control and configuration in the app
- Effortless installation and replacement

Superior, Fibra, and Baseline product lines are mutually compatible. This opens up numerous possibilities for building systems of any configuration.
